This did not give the school any indication of total enrollment or help in making out schedules for the First Grade teachers. Although a Spring Round-up will not be conducted this year, Principal Howard has released the following information which should prove helpful to parents of First Graders.

Parents who have children of school age should be giving their attention to those things which are important in school for the first time.

The Farm Front

I had the pleasure recently of officiating at the dedication and opening sale of Florida's newest livestock sales center, the Hillcrest Auction Market at Brooksville.

This market, modern in every respect, including an air-conditioned auction ring and a restaurant, brings to 39 the number of such markets now serving our cattle-men, dairymen and swine raisers.

When we start on statewide hog cholera eradication, which I hope will be getting underway soon after July 1, I expect to see strict enforcement of new sanitary regulations for markets as an important feature of a State-Federal cholera eradication program.

Our auction markets are an important link in the chain of services that bring meat to our dinner tables. Passing through Florida auction markets in 1931 was a total of about 800,000 animals, including 426,913 cattle and 366,419 hogs. The figures represent a major portion of the year's total marketings in Florida of both cattle and swine.

What is believed to be the largest sale of one owner's animals on record occurred earlier this year at a sales yard auction in Oregon. More than a million dollars changed hands in one day when 7,000 head of single-brand beef cattle—steers and cows—were auctioned. The sale lasted for 10 hours, and the auctioneers "cried" lots of 50 to 100 head at a time.

For comparison, a recent summary showed a gross of \$211,126 in receipts at 9 Florida markets in one week. In that period 15 markets reported sales of 4,341 cattle

and calves, 2,509 swine, one horse and 21 goats.

Rural families in America appear to be pretty good credit risks. Farmer's Home Administration of the U. S. Department of Agriculture, reports that during the 12 years it's rural housing loan program has been in effect, losses on principal have amounted to only 3 one-hundredths of 1 per cent.

Of the 356.4 million dollars in loans, only \$82,000 has been written off as uncollectible. Only 62 loans have been foreclosed since the program was originated in 1919. Of these, 9 were in 1930 and 8 in 1931. A total of 52,000 families obtained loans in the past 12 years and it's expected about 95 million dollars will be made available in housing loans this year.

I agree with Secretary of Agriculture Freeman who said "this is a remarkable tribute to the financial integrity of rural families and their ability to manage their financial affairs."

Incidentally, loans under this program are made only to those who are unable to obtain financing from conventional sources. As a result, the families who obtained such loans had to be extra careful to meet their repayment obligations. I think the record demonstrates the good judgment exercised by some 7,500 county committeemen who had the responsibility of evaluating the soundness of the loans made in their counties.

The rural housing loans have been of benefit to others besides the families who obtained them. A recent survey in one Alabama county showed that 23 loans there in 1931 totaled \$81,906. They provided 37,324 hours of employment for local labor. Of building materials purchases totaling \$195,720, the amount spent on items produced in the county came to \$81,620.

You can see how a local economy can be stimulated by a sound program that increases spending.

When money is put to work it tends to generate more business activity, more employment and more spending by businessmen and workers.

That's why economists are watching money so closely the volume of money industry is spending this year for improvements and expansion. They find spending by American consumers—the public—and by government at a high level but industry is holding back. Right now Florida is making better showing than the U. S. as a whole. Once the national trend begins to improve, you can expect our Sunshine State business activity to score even better gains.

It happened 100 YEARS ago

The oldest incorporated trade association in the country, the United States Brewers Association, was organized in 1862... the same year that

IN FLORIDA, citizens were evading the blockade of the Union Navy, by using small boats to bring in essential weapons and supplies for the Confederate armies. After each successful blockade run, many men celebrated with well-earned glasses of beer.

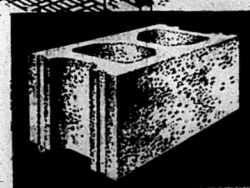

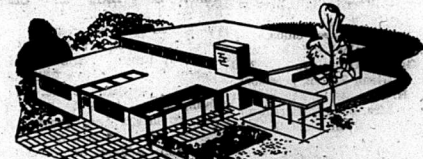

For then, as now, beer was the traditional beverage of moderation. But beer means more than enjoyment in our state. The Brewing Industry contributes more than 25 million tax dollars to Florida each year—money that helps support our hospitals, schools, and highways.

TODAY, in its centennial year, the United States Brewers Association still works constantly to assure maintenance of high standards of quality and propriety wherever beer and ale are served.

*"Today we need a nation of Minute Men
citizens who regard the preservation of freedom
as a basic purpose of their daily life"*

—JOHN FITZGERALD KENNEDY

10 days after his inauguration
as the 35th President of the
United States.

Twenty years ago, in the dark, uneasy days before Pearl Harbor, the Minute Man of Concord, timeless symbol of our Nation's determination to defend its freedom, emerged as the emblem of the U. S. Savings Bonds Program. When war came, the Minute Man became the rallying force behind the huge and overwhelmingly successful effort to back our fighting men with War Bonds.

In this, the 20th anniversary year of Savings Bonds, the Minute Man of Concord calls all Americans to an unremitting effort to help preserve our peace and freedom, threatened by forces more powerful and resourceful than those we faced in 1941. Though this effort will take many forms, one way open to all is the continued investment in Shares in America, U. S. Savings Bonds, by "citizens who regard the preservation of freedom as a basic purpose of their daily life."

Rogers Asks Sugar Increase In Bill

WASHINGTON, D. C. — Introducing new legislation on sugar quotas, Congressman Paul Rogers has called for an increased sugar cane marketing quota for mainland cane, of particular importance to the \$100,000,000 cane industry in Florida.

Rogers made his remarks before the House Agriculture Committee, which is presently considering the sugar legislation.

"Florida will be vitally affected by an increased quota because of our existing cane producing industry as well as our extensive cane expansion now in progress.

"Since the United States severed relations with Communist Castro we have no longer imported sugar from Cuba. Many Floridians have hoped that domestic producers could supply the United States market with Sugar, and I, for one, have long felt that we should never again become dependent on a foreign source for a large share of our sugar needs.

"I have introduced legislation

which would provide an increased quota for our Florida cane producers. My bill would also cut the portion of the Quota which was allocated to Cuba prior to Castro.

"I am hopeful that new sugar legislation will be enacted quickly so that the future of our \$100,000,000 Florida sugar industry will be secure and have new opportunities."

New $3\frac{3}{4}\%$ interest on U.S. Savings Bonds

The Treasury explains why the new ones you buy and the ones you own now are better than ever

Q: How does the new $3\frac{3}{4}\%$ interest rate benefit me?

A: With Series E Bonds, the rate turns \$18.75 into \$25.00 fourteen months faster than the old rate. Your savings increase faster, because your Bonds mature in just 7 years, 9 months.

With Series H Bonds, the 10-year maturity period stays the same but more interest is paid you each six months. With both E and H Bonds the new rate works out to $2\frac{3}{4}\%$ for the first year and a half; then a guaranteed 4% each year to maturity.

Q: When did the new rate become effective?

A: June 1, 1959.

Q: Does the new rate change the Bonds I bought before June 1, 1959?

A: All older E and H Bonds pay more now—an extra $\frac{1}{2}\%$ from now on, when held to maturity. The increase takes effect at the first full interest period after June 1.

Q: Will the Bonds I own automatically earn their new rate?

A: Yes. You don't need to do a thing—just hold on to your Bonds.

Q: When my E Bonds mature, will they keep on earning interest?

A: Yes. An automatic 10-year extension privilege went into effect along with the new interest rate. This means your E Bonds will automatically keep earning interest after maturity.

Q: With the new interest rate, should I cash in my old Bonds and buy new ones?

A: No. The automatic $1\frac{1}{2}\%$ increase makes it unnecessary—and in almost every case it is to your advantage to retain your present Bonds.

Q: How are series H Bonds different from series E Bonds?

A: The chief difference is this: You buy H Bonds at full face value and the interest is paid by Treasury

check every six months for the life of the Bond. You buy E Bonds at 75% of face value and the interest accumulates to maturity. H Bonds provide income for living expenses, while E Bonds build a nest egg for the future. That's why many retired people hold H Bonds and families saving for, say, a child's education, buy E Bonds.

Q: In what denominations can I buy series E and series H Bonds?

A: E Bonds: \$25 (cost \$18.75), \$50 (cost \$37.50), \$100 (cost \$75.00), \$200 (cost \$150.00), \$500 (cost \$375.00), \$1,000 (cost \$750.00), \$10,000 (cost \$7,500.00).

H Bonds: \$500, \$1,000, \$5,000 and \$10,000. They are priced at face value.

Q: How safe are U.S. Savings Bonds?

A: Savings Bonds are an absolutely riskless way to save. The United States Government guarantees the cash value of your Bonds will not drop, that it can only grow.

Q: What if my Bonds should be lost, stolen or destroyed?

A: You can't lose. Every Bond purchased is recorded by the Treasury. If anything happens to your Bonds they are replaced—free.

Q: Where can I buy Bonds?

A: Buy E Bonds at any bank—it takes only a few minutes. Buy them automatically through the Payroll Savings Plan where you work. This Plan means you can have any amount you name automatically deducted every payday. The Bonds you buy by installments are delivered to you automatically, too. Your bank will take your order for H Bonds.

Q: How do I help strengthen America's peace power when I buy U.S. Savings Bonds?

A: Peace costs money—money for military strength and for science. And money saved by individuals helps keep our economy sound.

YOU SAVE MORE THAN MONEY WITH U. S. SAVINGS BONDS

Divine healing is a theme of the Lesson-Sermon entitled "Soul and Body" to be heard at Christian Science services Sunday.

Matthew's account of the healing by Christ Jesus of the centurion's servant who was "sick of the palsy" will be included in the Scriptural readings.

One of the correlative citations to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy states:

"Knowing that Soul and its attributes were forever manifested through man, the Master healed the sick, gave sight to the blind, hearing to the deaf, feet to the lame, thus bringing to light the scientific action of the divine Mind on human minds and bodies and giving a better understanding of Soul and salvation" (p. 210).

EASSA for School Board

Selection of your School Board is most important. They should be capable business men . . . they should be tax conscious with an eye for economy . . . they should be appreciative of efforts made by our teachers and others in the school system . . . they should set progressive policies and not interfere with the curriculum already being handled by skilled, competent employees . . . they should not be allied with any block voting group that seeks special privileges . . . they should be men like JACK J. EASSA who meets these requirements.

years old by the following January. A birth certificate or certain other legal documents must be presented as evidence of birthday.

Parents who have children who will be entering school for the first time in September should make sure that this evidence is on hand to be presented to the proper authorities on Registration Day, August 30, 1962.

In addition to the birth certificate the following information will be needed during registration: health record, name of family doctor, name and address of person to call in case parents cannot be reached in emergency, and a record of immunizations. Palm Beach County Board of Public Instruction requires parents to submit evidence that the child has had Small Pox, Poliomyelitis and Diphtheria immunizations.

All parents are urged to take their children to their family doctor to insure that the child will fulfill the law regarding the immunization requirements of the Board. One other requirement that should be attended to on registration day is the Affirmation of Exemption from payment of non-resident tuition fee. Each child entering school must have on file a statement that the parent is exempt from the payment of non-resident tuition.

If all parents of students entering first grade in the fall would follow the above requirements and suggestions, then registration day in the fall should be accomplished without too much confusion and misunderstanding.

Jerry Carter Says:

Thanks Folks!

I want to thank all the good citizens of Florida, especially the ladies and their organizations, as well as the men and their, and also the members of the Junior Chamber of Commerce and Young Democrats for the magnificent support they gave me in the first primary, and solicit their activity and vote in my behalf in the coming run-off primary.

In the first primary 60 out of the State's 67 Counties!

40 Counties each gave Jerry Carter MORE VOTES than all other opponents combined!

20 Counties each placed Jerry Carter FIRST with a big majority in each of these Counties.

JERRY CARTER has saved the Florida Residents nearly . . .

\$200,000,000.

ON ELECTRICITY, GAS and PHONE BILLS.

A PROVEN RECORD NOT PROMISES

TALLAHASSEE AREA — Jerry Carter was directly responsible for refunds to the customers of Southeastern Telephone Company in North Central and Northwest Florida of nearly \$1 million.

SOUTH FLORIDA — Four (4) separate rate reductions on Florida Power and Light Co. were ordered by the commission in 1957 reducing electric light rates \$4,725,000 annually. Another \$200,000 in '60, another 6 1/4 million in 1960 and another for \$2 million. Total nearly \$15 million in this vast area alone.

PENSACOLA — The Commission ordered rate reductions of \$257,501 annually — went into effect January 1958. (Gulf Power Co.)

JACKSONVILLE — Refunds in gas amounted to \$105,727 (Jacksonville Gas Co.)

MADISON — Commissioner Carter brought before the commission the phone company serving Madison, into a public hearing on rates and an inadequate and inefficient service. Charges were cut ONE HALF! This action spurred other phone companies in the state to install more modern and efficient equipment under the supervision and through the cooperation of your Commissioner Jerry Carter and the Commission.

ALL FLORIDA — Reduced rates for natural gas have gone into effect all over the state by order of the Commission. Jerry Carter's first act was to urge investigation and it resulted in the first statewide 10 percent reduction of exchange phone charges; and abolished a 50c per month charge for desk and hand phones.
